### **DETAILED ACTION**

1. This Office Action is a response to communications dated 06/09/08. Claims 16 is pending in the application.

#### ***Allowable Subject Matter***

2. Claim 16 is allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed method, comprising, among other limitations, novel and unobvious limitations of *"if the DVMRP probe message detected by the first router is the first branch detected, transmitting, by the first router, a route report to neighbors on the first branch; if the DVMRP probe message detected by the first router is other than the first branch detected, transmitting, by the first router, to any previously detected neighbors, a flash router report with unreachable metric for the newly detected branch; and transmitting, by the first router, to the newly detected branch a route report omitting reference to the previously detected branches and routes associated-with those branches,"* structurally and functionally interconnected with other limitations in a manner as recited in claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
